

STOP THE SPREAD AND STAY SAFE!

Help keep your organization and your community safer through the *Stop the Spread and Stay Safe! Program: COVID-19 Screening for Community Organizations*

Your organization can gain access to **easy and free tests** to implement as part of a screening program to mitigate risk to your staff and the community your organization supports. You will also be contributing to the collective response to COVID-19 through screening and rapid action.

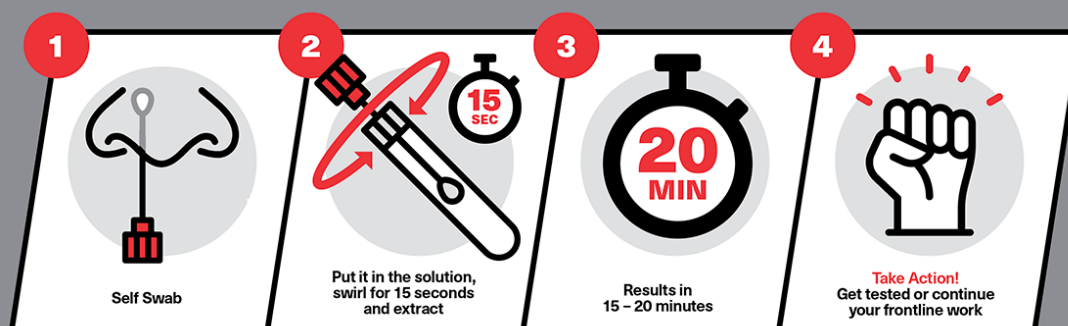

Why participate?

- This is a **simple and easy way to consistently screen** your personnel to stop the spread and help keep them safe. Consistent and frequent screening allows your organization to detect potential COVID-19 cases in 15 minutes.
- Screening your personnel gives the people you serve and your wider community **greater confidence in the services you are providing**.
- A screening program using rapid antigen tests is one of the tools, used with masks, hand-washing, social distancing, and cleaning protocols, that can reduce the spread of COVID-19. **Even with vaccination, testing is critical to early detection and mitigations** to reduce individual and collective risk.
- This program will help **contribute to Canada's collective COVID-19 response** through implementation and reporting back on results.

What does my organization get if we qualify?

- Free, self-administered **rapid antigen tests** provided by the Government of Canada.
- **Training** on how to administer rapid antigen tests.
- **Guidance on how to set up a screening program** to administer the rapid antigen tests – tips, tools, training and support for implementing a screening program in your organization.
- Access to call centre and **tailored supports by a team of experts** including webinars with experts to support your program.

What do you mean by self-administered testing?

Note: Self-test kits are COVID-19 tests that are administered by the individual requiring the testing. *These are not instructions for use but rather a general description to describe what the test is on a basic level. Please refer to the complete instructions provided with the test prior to use.*

How can my organization apply to this Program?

This program is **now available for pre-registration** if your organization is located in Ontario or has workers in Ontario.

If your organization is located outside of Ontario - let us know you are interested! Please fill in the pre-registration details and we will notify you if this program becomes available in your region.
